

Team Meeting

Date 4/15/25

Time 2:30 PM

Location CKB 310

Meeting called by:	Ashraf Aldekaim	Type of meeting:	In-person
Facilitator:	Ashraf Aldekaim	Note taker:	N/A
Timekeeper:	N/A		
Attendees:	Muqtadira, Joel, Alexander		
Please read:	Our shared document		
Please bring:	Apps you researched		

Minutes

Agenda item:	Discussion of app research and standout features	Presenter:	All team members
--------------	--	------------	------------------

Discussion:

Each team member shared insights from their app research. We discussed features from apps like Venmo, Yotta, Splitwise, and Public.com. Gamification and social/group finance stood out as features that we believe would appeal to college students. We explored how these could be incorporated into a unique app concept.

Conclusions:

Gamified savings and group saving goals are promising features.

College students are an underserved market in social finance.

These findings will shape our app's core value proposition.

Action items	Person responsible	Deadline
✓ Finalize standout features write-up	Muqtadria Alli	April 17, 2025
✓ Share notes on app comparison	Joel Dapo	April 17, 2025
✓ Upload all research to GitHub repo	Ashraf Aldekaim	April 18, 2025

Agenda item:	Define target market and user persona	Presenter:	Group discussion led by Ashraf
--------------	---------------------------------------	------------	--------------------------------

Discussion:

We evaluated underserved groups and concluded that **college students** are often left out of social finance app development. They face unique financial challenges (shared expenses, irregular income, low savings habits) and are highly social, making them ideal for our app's direction.

Conclusions:

Our app will focus on college students.

We'll develop a user persona ("Jordan") for our report.

Action items	Person responsible	Deadline
✓ Create draft of user persona	Alex Johnson	April 18, 2025

Action items	Person responsible	Deadline
✓ Review and add research analysis to repo	Muqtadria Alli	April 19, 2025
✓ Include supporting data in the report	Joel Dapo	April 20, 2025

Agenda item: Brainstorming app name and concept

Presenter: Group discussion

Discussion:

Several app names were proposed. We chose "**Fundsy**" as our working title. We discussed initial features: gamified saving, group goal tracking, social accountability, and student-focused budgeting tools.

Conclusions:

Working app name: Fundsy.

Focus: Gamified, collaborative saving for college students

Next step: Begin feature planning and wireframe sketching

Action items	Person responsible	Deadline
✓ Draft app description and feature list	Ashraf Aldekaim	April 20, 2025
✓ Start mock-up or wireframe ideas	Alex Johnson	April 22, 2025
✓ Finalize app branding (colors, logo ideas)	Joel Dapo	April 23, 2025

Other Information

Observers: None

Resources: Research notes, fintech market reports, shared Google Docs

Special Notes: Great collaboration this meeting; team agreed to meet again next week to finalize app concept and begin presentation slides.
